DEALER

Tucker 2000, 5-bogie

WHO is Hans Hall Inc. ? *Hans Hall* is the only company that offers complete track systems and spare parts for almost all groomer makes and models. We offer Steel, Aluminum and Rubber systems in both OEM and *Hans Hall* designed tracks.

Hans Hall opened business in the USA in 1999. It's head off is located in Murray (Salt Lake City) Utah and has dealer outlet in New England, Minnesota and California.

Hans Hall has over 400 set of tracks operating on North America's Ski Slopes, Snowmobile Trails, Crosscountry Resorts and Utility Vehicles. Our tracks on successfully operating on Tucker, LMC, Bombardier and Pisten Bully groomers.

Hans Hall Fishbone tracks are designed to operate in fresh deep or packed snow conditions. The cleat design offers great traction and side-hilling and when required for those occasions when having to cross or run down paved roads. For icy conditions **Trail-Grabber®** carbide stud's can be added as needed for extra traction.
